ance Notes on Codes and Abbreviations" appearing at the begin-
ning of each regular issue of the PCT Gazette.

(54) Title: METHOD FOR MODEM SWITCHING FOR USE WITH MM-MB TERMINAL

(57) Abstract: This invention relates to the switching method between the modems of MM-MB terminal. The provided multi-mode/multi-band terminal has the following characteristics: RF antenna transmitting/receiving CDMA-2000 signal and /or WCDMA signal; RF transceiver which is able to receive- the WCDMA pilot signal that the RF antenna is transmitting, and further transmit the encoded WCDMA pilot signal: a measuring system of pilot signal which measures the strength of the duplicated WCDMA and generate/ transmit Ec/Io value: WCDMA modem and CDMA-2000 modem that conducts Signal processing according to the protocol defined by WCDMA specification or CDMA-2000 specification ; a flash memory storing switching between the WCDMA modem and the CDMA-2000 using the Ec/Io value.
